

## VAMC Chillicothe Biomass/CHP Installation 1 Year Assessment Keys To Success

- Fuel Supply – must have
- Fuel Vendor – what you need
- CHP Interchange Agreement with Utility – start early
- Culture Change – In house staff
- Labor & Maintenance – worth the effort

- Operations – must obtain buy-in
- Central Vacuum System – great thing to have
- First Season – getting it right
- Support Agreement – expect to have them
- Invitation – come and see it for yourself
